

# Getting Started with iNaturalist

An introduction in 5 slides

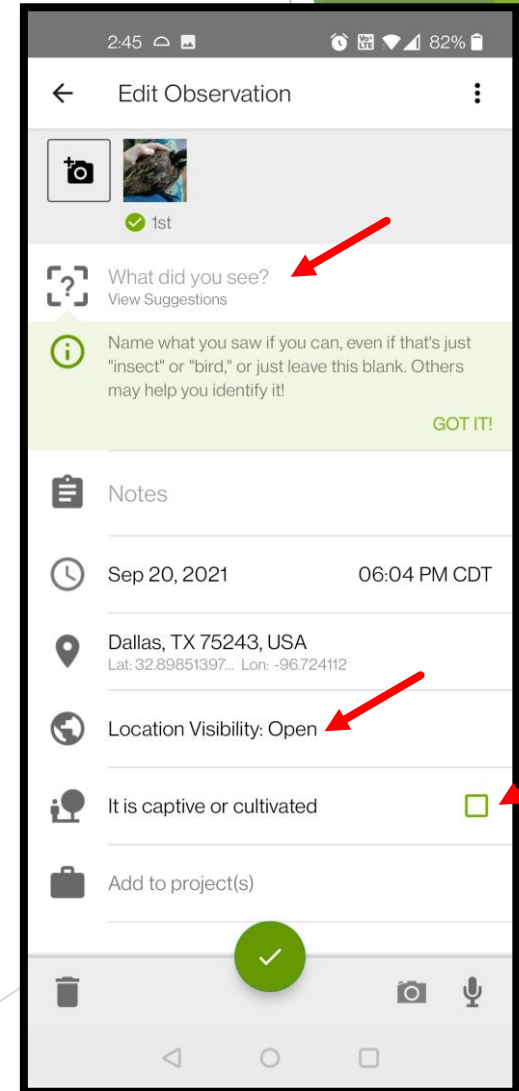

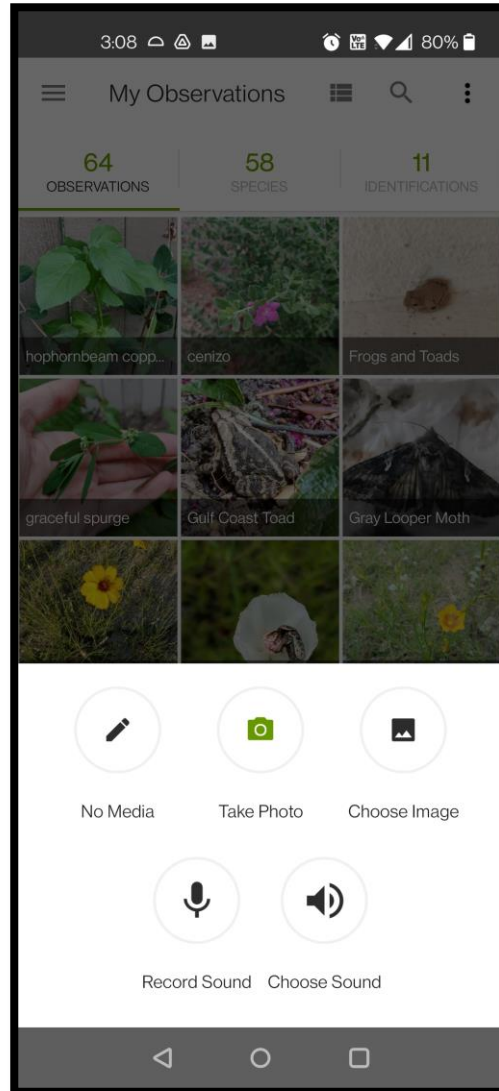

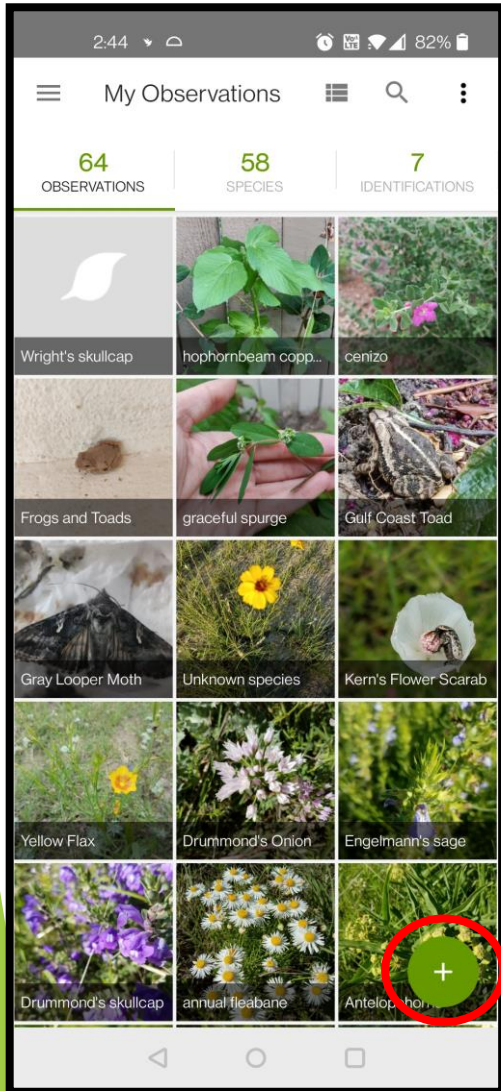

# What is iNaturalist?

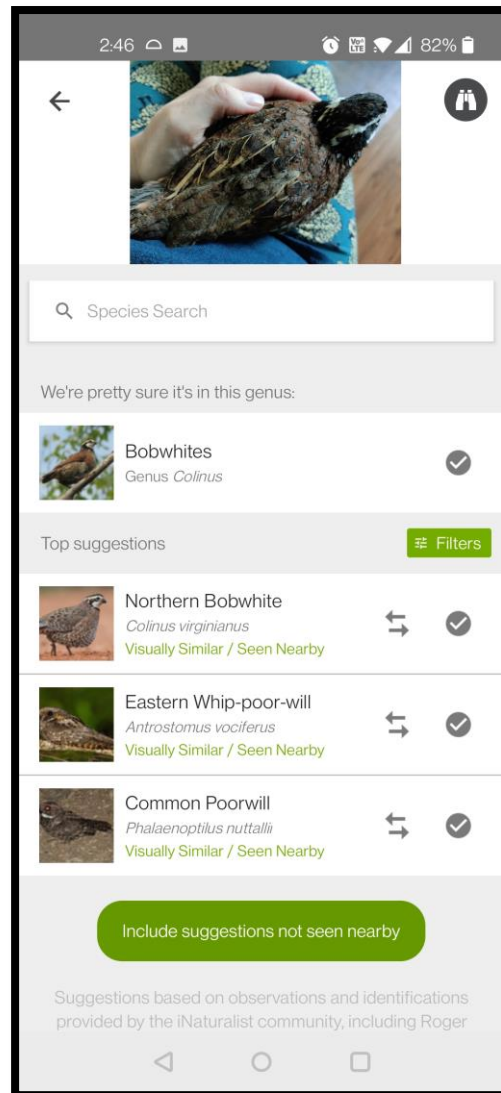

- ▶ An app that allows you to log and identify any living thing
  - ▶ All animals and insects, plants, fungi, lichens
- ▶ Submit photos or audio recordings to log species
- ▶ ID suggested based on location and similarities
- ▶ Other experts can weigh in to confirm your ID or propose a new one
- ▶ Citizen science!

# How do I submit an observation?

# Making observations continued

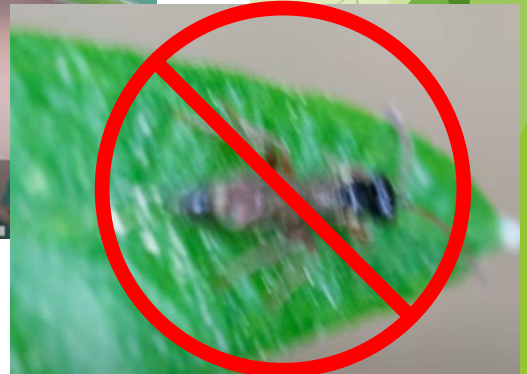

# Tips for observation photos

- ▶ Get both full-body shots (with a size reference if possible) and closeups
- ▶ Include photographs from different angles, and different parts of the organism
- ▶ Make sure your photos are in focus (see what phone settings might help)

...flowers and leaves...

# How do I help identify?
