Life's better outside.[®]
PROUD PARTNER

Mentor Training

Land, Water, & Wildlife Expeditions are:

- For youth ages 11-17, and their parent or guardian
- 1-to-3-day expeditions on private land
- An opportunity to learn alongside mentors and natural resource experts
- About topics such as birding, angler education, native plants, and much more.

Our ideal mentor is someone:

- With a love for the outdoors
- Who has a passion for outdoor education
- Who desires to share that experience with others.

Participants at our Mentor Training will:

- Learn how to introduce this program to landowners, plan and facilitate an expedition experience, recruit participants, volunteers and natural resource experts, and more
- Have the opportunity to get involved with this new program and introduce youth to the outdoors.

*An optional Volunteer Angler Ed Instructor is being offered Sunday, August 27 free of charge
